WORKSHOP'S PROGRAM

Inside a magical setting, in an environment of peace and serenity you can live the experience of sculpture on Lecce stone.

Over the course of three working days, you will discover the secrets of this magical stone. Its characteristic softness, the charm of fossils trapped in themselves, the energy and warmth that it can give you in the fluidity of its clayey veins.

Starting from the roughing phases with saws, hammer and chisels and then arriving at the final finishing with rasps and sandpaper, you will free your idea already trapped in an inert block of Lecce stone, giving it a life of its own.

- First day : presentations and brief description of the Lecce stone, its characteristics and historical notes.
- Theoretical elaboration of your idea/project and evaluation of the feasibility of the work and type of stone block to be used.
- Second day: we will proceed with the actual practice. Once the idea has been brought back to stone, we will proceed with the roughing of the block and then the sculptural phase that will lead us to have the final shape of the work well outlined.
- Third day: we will move on to the finishing phases according to your artistic choice.

TOOLS KITS: 25 €/per pax - INSCRIPTIONS: close 23/04
